RELEVANT SUBCONTRACTORS IN RELATION TO THE PRODUCT(S) TO BE CERTIFIED

You are asked to carry out an assessment of each subcontractor, not REMADE certified for the work entrusted to them, based on the following questions and fill in the table with those assessed at risk:

1. Does the subcontractor classify the incoming material, i.e. does it manage materials with different percentages of recycled content that are not clearly identifiable? ☐ YES ☐ NO
2. Is the subcontractor's production site in a different country from that of the Organization? ☐ YES ☐ NO
3. Does the subcontractor not make the material available to the organization at the end of its process, i.e. does it ship the product directly? ☐ YES ☐ NO
4. Does the subcontractor affix the REMADE label to the product? ☐ YES ☐ NO

Company name	Location of production site	Activity	Contact person E-mail/Phone	At least 1 positive answer to the 4 previous questions?
				☐ YES ☐ NO

PRODUCT(S) TO BE CERTIFIED (IF NECESSARY ATTACH THE COMPLETE LIST)

Number/ Families*	Commercial name of the product	Commodity sector	N° of recycled materials and/or by-products of which the product is made	Type of recycled materials and/or by-products of which the product is made	N° of REMADE certified components

In relation to the materials/by-products mentioned above, is the company able to provide information relating to their origin (traceability of the waste/by-product)? ☐ YES ☐ NO

The Company declares to have read the Technical Specifications published on the REMADE website and the conditions set out therein for the issuing of the certification and all the conditions set out therein. The Company agrees to send the information contained in this sheet to accredited Certification Bodies, for the exclusive purpose of receiving a free cost estimate for the REMADE Certification service.
